November 5, 2021

Good afternoon, this is an important update for EJ students, staff and families.

On Friday, November 12, East Jackson Elementary School will host a child vaccination clinic with the Jackson County Health Department. Nurses and health officials will be on site in the EJ Elementary volleyball gym to distribute vaccinations to eligible students 3:30 – 5:00 p.m. Parking will be available in the back of the building by the volleyball gym.

It is important to note that COVID vaccinations are not required for students. The district is collaborating with area health partners to make it convenient for parents and families to access vaccinations in a way that is safe, easy, and quick as possible. There is no cost for the vaccination, but appointments will be required. Families interested in participating, the signup link is available on the district webpage or paper copies are available at the school office.

Anyone under the age of 18 must have a parent or guardian present to participate.

Please click this link to schedule an appointment: <https://www.signupgenius.com/go/EJ5-11>

If this schedule does not match your family's needs, additional options may be available through your medical provider, Henry Ford Allegiance Health, or any local pharmacy.

We realize that guidance regarding COVID-19 continues to shift and our district is doing our best to keep our community informed and safe. If you have any questions, please contact the school office.

Sincerely,

Steve Doerr
Superintendent
