FAX (517) 764-6033

## ENVIRONMENTAL PUBLIC NOTIFICATION

It is a state law that we notify the East Jackson Community School district on an annual basis of the availability of the Asbestos Management Plan.

This plan is available for public review and is located in the custodial office of each building. These documents will explain exactly where asbestos still exists within each building.

Please contact Maintenance Supervisor, Randy Wilkinson at 517-764-2090 ext. 4 or [randy.wilkinson@eastjacksonschools.org](mailto:randy.wilkinson@eastjacksonschools.org) with any questions regarding location of building materials containing asbestos.
